Concrete panels & Basins

## Serene

We go beyond the basics and rebrand the industrial concrete as a luxurious material that balances artistry and technique, design and engineering. Supported by state-of-the-art manufacturing techniques and a growing skilled team of craftsmen, our version of concrete is both super-strong and aesthetically pleasing adding an organic soul to spaces (interior or exterior).

H-UHPC is a highly dense material with extremely low porosity, reinforced with high density fiber with much higher flexural and tensile strength than regular concrete making it apt for thin wall panels. It has high chemical resistance and doesn't rot or corrode.

\*We are always happy to tailor-make our designs as per your needs

## Curve

Here's a harmonious symmetrical design which gives the impression of a continuous seamless effect. To harness the aesthetic beauty of its curvy flow there is a interchange of depths which amplifies its three dimensional identity. It can be rotated into many different arrangements forming endless curious patterns. It can be tiled either entirely or partially covering the wall. With the presence of light, architecture will turn into a kaleidoscope of reflections creating a magical ambience.

\*We are always happy to tailor-make our designs as per your needs

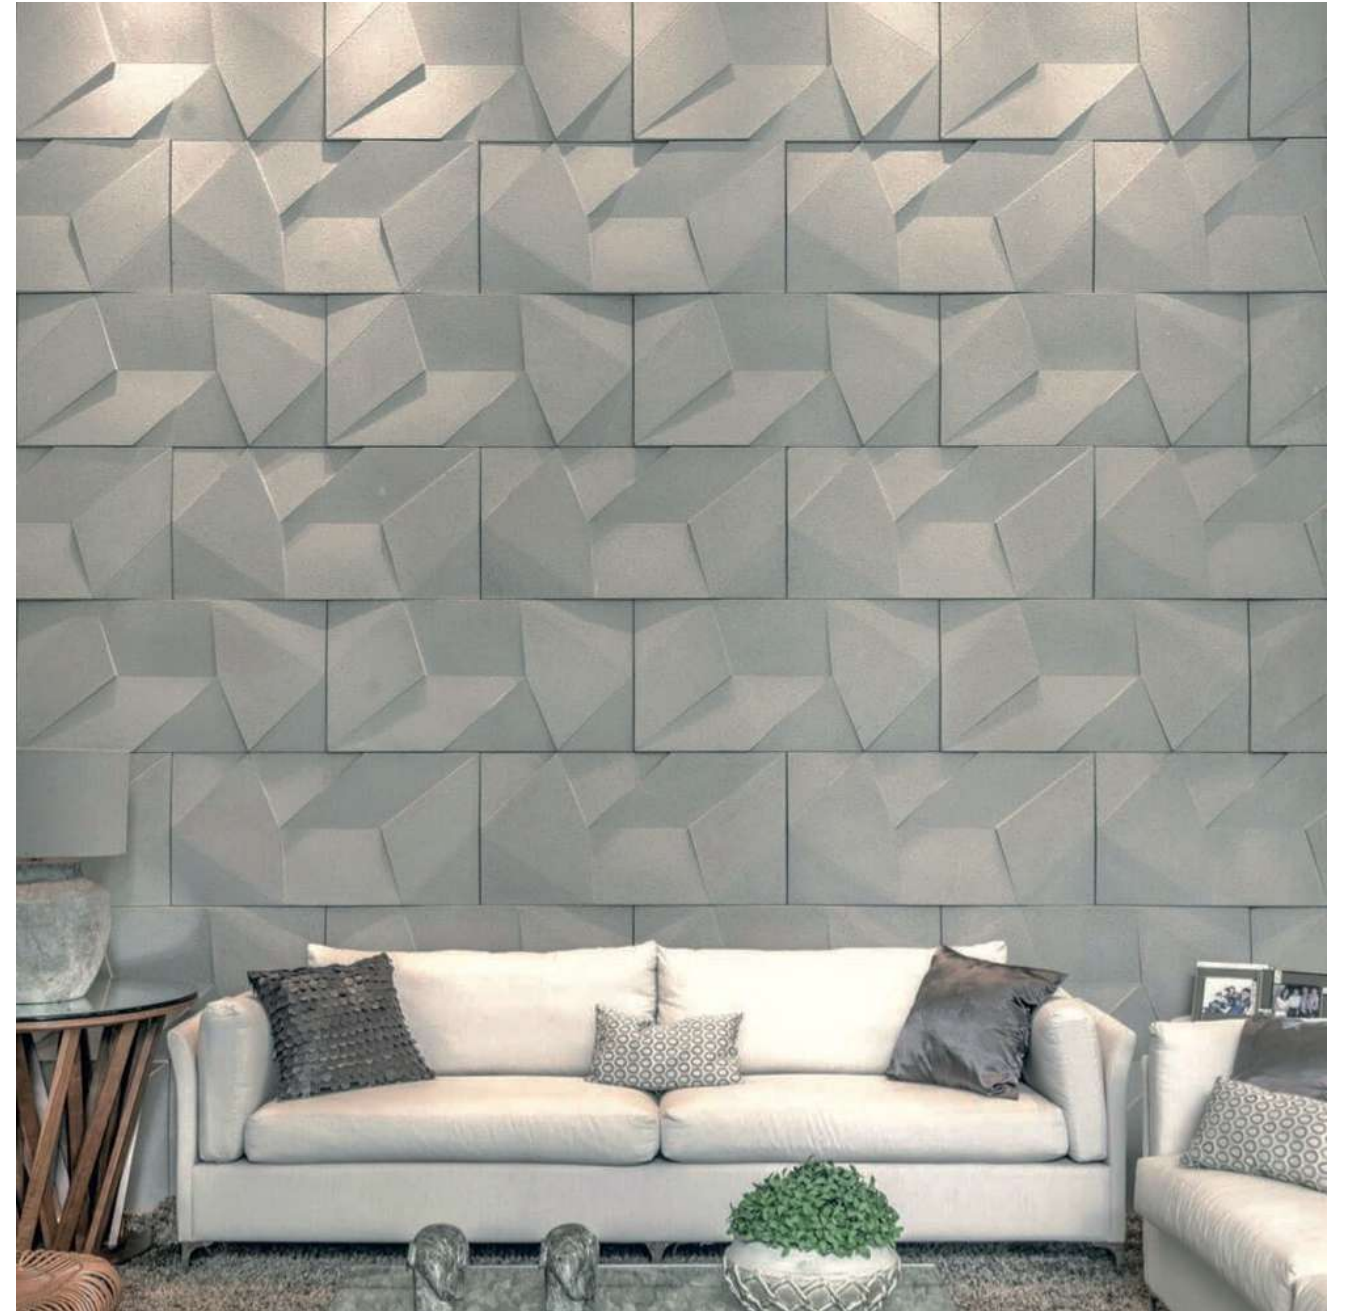

Concrete is a material  
that lives, breathes &  
ages with you

# Peak

Peak creates an easy-on-the-eye, minimalistic look by combining quadrilateral and triangle shapes in free composition thereby forming a dynamic pattern of geometric topography. The clean shape gives an illusion of tiles peaking out of the wall to produce tension and dynamism while maintaining the organic feel of the material.

\*We are always happy to tailor-make our designs as per your needs

## Terra

Though Terra represents a parched and seasoned piece of terrain, you can use it to add life to an entire wall or just a part of it. The fragmented pattern of this nature-inspired panel gives a rugged and gutsy look to the space while making it a wall worth remembering.

\*We are always happy to tailor-make our designs as per your needs

# Fusion

Using just lines and curves, Fusion creates minimal patterns when combined and provides a high quality and luxury look in general. The duo of shapes on it are used wisely and are designed to add character to a space. While fusion gives a fresh new look to the walls, you will never get tired of its elegance and quality.

# Igniting the Spark

**03.** Architectural lighting

## Devi Rathn, Jaipur

And upon the meshed roof so woven with ancient tree roots came a light filtered by the bouquet of foliage above: softened, verdant and freshly aromatic.

An interesting use of up lighting to create shadows and design highlighting the arch and guiding the way.

# Baradari

City palace, Jaipur

## Gujarat Bhawan, Delhi

There is a light, a playful incandescent light that comes to heart of sun kissed leaves and raises them far beyond the façade of this heritage building.

LED's and bollards running all around the different levels and property were designed in order to light up the place in a linear yet artistic way. The landscape has been highlighted using path lights.

THE GARDEN ROOM.

# Farmhouse

Light upon the greens is a joy. Light upon the tree is a work of art. Light through the sky brings the arching colors of brick and mortar to life.

Use of ground embeds and highlighters to breathe life into the surroundings, incandescent light adds warmth to the building.

# Taj hotels

Igniting the world anew with such brilliance, the sun rose with casual elegance. Each day it shone and the world shone back, joyful to reflect those warm rays. Beating the blues with the vibrant yellow lighting all around the luxury property.
